AMEND Senate Bill No. 821*

House Bill No. 994

by deleting all language after the enacting clause and substituting instead the following:

SECTION 1. Tennessee Code Annotated, Title 38, Chapter 6, is amended by adding the following as a new part:

38-6-301.

(a) The Tennessee violence intervention program is established within the department of finance and administration's office of criminal justice programs.

(b) The purpose of the program is to invest in effective, evidence-based violence reduction initiatives focused on the highest-risk individuals in communities disproportionately impacted by community violence.

(c) Specifically, the office may create a part-time position for the purpose of establishing, advertising, and administering grants through the Tennessee violence intervention program and, to the extent possible, hold public forums to gather community input regarding the programs.

(d) As used in this part, "office" means the department of finance and administration's office of criminal justice programs.

38-6-302.

(a) The office shall award grants from the Tennessee violence intervention program on a competitive basis to municipalities, not-for-profit health agencies, law enforcement agencies, and nonprofit organizations that serve communities with disproportionately high rates and numbers of homicides and other incidents of violent crime, as determined by the office. The grants must be used to:

(1) Implement, expand, or enhance the coordination between evidence-based violence reduction initiatives, such as hospital-based violence intervention programs, street outreach programs, and focused deterrence strategies, that have demonstrated effectiveness at reducing rates of homicides and other incidents of violent crime via the provision of targeted services to victims affected by crime or violence;

(2) Support the development and delivery of intervention-based strategies by entities that provide targeted services to individuals who are victims affected by crime or violence and are at risk of being victimized by or engaging in violence, in order to interrupt cycles of violence, reinjury, and retaliation;

(3) Support initiatives that primarily target a reduction of violence among individuals who are victims affected by crime or violence and have been identified as having the highest risk of perpetrating or being victimized again by violence in the near future; and

(4) Ensure that a sufficient portion of the available grant funding is provided to support programs directed at providing public awareness, outreach, assistance, or intervention services to victims of violent crime offered at community locations, such as not-for-profit hospitals, where individuals may be encountered in the immediate aftermath of a violent incident.

(b) In awarding grants, the office shall prioritize the following applicants:

(1) A not-for-profit hospital or a not-for-profit entity operating within, on behalf of, or in partnership with a hospital that operates or is applying to operate a hospital-based or hospital-linked violence intervention program that provides services in a municipality that has a disproportionately high rate of violent crime or homicide; or

(2) Applicants operating in areas disproportionately affected by violent crime, and whose proposals demonstrate the greatest likelihood of reducing,

through targeted services, the rate and number of homicides and other incidents of violent crime in the community served by the applicant without contributing to mass incarceration.

(c) Applicants may apply either independently or jointly.

(d) The amount of funds awarded to an applicant is not limited to a specific amount and must be commensurate with:

(1) Levels of violent crime in the community served by the applicant;

(2) The scope of the applicant's proposal; and

(3) The applicant's demonstrated need for additional resources to effectively reduce the rate and number of homicides and other incidents of violent crime in the community served by the applicant.

(e) A grantee may use the grant awarded to supplement, but not replace, funding that would otherwise be made available to address group and community violence in the grantee's community.

(f) As used in this section, "hospital-based or hospital-linked violence intervention program" means a program that is operated by a not-for-profit hospital, or by a person or entity who is contracted to operate a program within, on behalf of, or in partnership with a hospital, and that works to end cycles of violence through the provision of intensive counseling, case management, and social services to patients who are recovering from injuries resulting from violence.

38-6-303.

Application for a grant must be made in a manner and form as determined by the office. A formal notice of availability of funding must be posted prior to the time for acceptance of applications. However, at a minimum, in applying for the grant, the applicant shall provide:

(1) A description of how the applicant proposes to use the grant funds to implement an evidence-based violence reduction initiative pursuant to this part;

(2) A description of how the applicant proposes to use the grant funds to promote or improve coordination among agencies, organizations, and any already existing violence reduction strategies or programs, in order to minimize duplication of services and achieve maximum impact;

(3) Objective evidence indicating that the applicant's proposed violence reduction initiative would likely reduce rates of homicides and other incidents of violent crime; and

(4) Clearly defined, measurable objectives for the violence reduction initiative.

38-6-304.

The office may use up to eight percent (8%) of the funds appropriated or made available, or such percentage as may be authorized under program guidelines for funding made available to the Tennessee violence intervention program through federal funding sources, for technical assistance and for the costs of implementing and administering the program, including employment of dedicated grants management and program personnel and annual program evaluation and analysis of the effectiveness of violence reduction initiatives. The office shall make these evaluations available to the public.

38-6-305.

The office shall utilize the current processes for grant management and reporting under this part.

38-6-306.

The office shall report on the activities of the program annually to the governor, the chief clerks of the senate and house of representatives, and the legislative librarian. The report must include a listing of the grants awarded under the program, descriptions of the initiatives and impact on the communities served through the grants, and other

information as the office deems appropriate. The report must include, but not be limited to:

- (1) A list of all grant applicants and approved grant applicants;
- (2) The amounts awarded to approved grant applicants;
- (3) The amount of matching funds and types of in-kind contributions provided by approved grant applicants; and
- (4) A status report on the activities funded by an approved grant applicant.

38-6-307.

(a) The office may seek money from the federal government and other sources, including private foundations, to fund the initiative created by this part.

(b) Available federal funding may, to the extent permitted by federal law, be used to award grants for initiatives authorized under this part and to promote the purposes of the Tennessee violence intervention program, which funding will be in addition to any other funds appropriated, contributed, awarded, or otherwise provided for these purposes. The office may establish or provide for such additional conditions, limitations, and requirements on the Tennessee violence intervention program applicants and grantees as appropriate to promote the purposes of this part and to ensure that any grants relying on federal funding sources of participation are awarded in compliance with federal law.

SECTION 2. This act is not an appropriation of state funds, and state funds must not be obligated or expended pursuant to this act unless the state funds are specifically appropriated by the general appropriations act.

SECTION 3. This act takes effect July 1, 2021, the public welfare requiring it.
